**Let's Do Lunch**

This engaging program introduces students to the life cycles and behaviors of some of nature's most fascinating creatures. Through music, multimedia, and storytelling, Lucas Miller brings to life the growth and migration of monarch butterflies, the metamorphosis of frogs, the pollination of bluebonnets, and the incredible work of honeybees. It is science learning wrapped in laughter, movement, and unforgettable songs.

Run Time: 45-50 minutes

Recommended for grades K-5
